- Accessories**
- Confirm that the package contains the following items.
If any items are damaged or miss, contact the sales agent you purchased your MZK-WNH from or contact Technical Support of PLANEX COMMUNICATIONS.
 - Quick Installation Guide (this guide)
 - Safety Instructions/Warranty Card
 - MZK-WNH (this product)
 - AC adapter
(The adapter form varies depending on the countries.)
 - CD-ROM (software & user's manual)
 - LAN cable

STEP 2 Setup

Please follow the following procedure to set up the internet connection with "Planex Network Manager". The procedure in here is only for Windows. If you setup with Mac OS X, please refer to "To use "Planex Network Manager" with Mac OS X" in "Troubleshooting" on the back side of this product.

- 1** Power on your PC and insert attached CD-ROM in the CD/DVD drive of the PC.
- 2** Open "netman" folder and double-click "NetMan_AnuRun" icon.
- 3** When the window, shown on the right, is displayed, confirm the contents and click [I Agree]. If the window is not displayed, proceed to step 5.
- 4** When the window as right is displayed, click [Finish].
- 5** When "Planex Network Manager" starts, click MZK-WNH icon.
- 6** Click [Setting for the first time], and then setup the internet connection following the explanation of the window.
- 7** When the window, shown on the right, is displayed, the installation is completed. Click [Test] to confirm the internet connection was successful.
- If the window to input the user name and password is displayed**
- If the following window is displayed during the operation, follow the procedure below.
- ① User ID
Input the password assigned by the provider by half width.
ex. abc123@xyz.ne.jp
- ② Password
Input the password assigned by the provider by half width.
ex. abcDEF123
You can confirm the password if you check "The password is displayed." when you input the password.

STEP 3 Confirmation

Web browser will be displayed automatically. Confirm that the Planex web site as right is displayed. If the window is displayed, click on the "Planex Network Manager" window and finish the "Planex Network Manager".

This completes the setup process.

Internet connection is available normally if you continue to connect the PC used in setup to MZK-WNH. Please refer to "Troubleshooting" in this document or "User's manual" in the attached CD-ROM in the event of trouble or detailed setup like the wireless connection to MZK-WNH, or a error display during the operation of "Planex Network Manager".
